This guide is just that – a guide.

We will always view applicants as a whole – meaning we will consider other factors such as finance, profession and background. We won't rely solely on medical history when making an underwriting decision.

We will also practice a debit/credit approach, because we know that even though someone may have a health issue, favorable factors can help reduce the extra risk associated with it.

We have the utmost respect for the agent/client relationship and are committed to underwriting practices that strengthen that relationship. We know you have choices when deciding where to place your business, so we believe earning your business requires differentiating ourselves through the service and treatment we deliver to every producer and client.

We are committed to:

- Attracting and retaining well-trained medical and underwriting professionals
- Consistently updating our underwriting guidelines to reflect medical advancements
- Continually monitoring mortality trends
- Updating our debit/credit system to acknowledge favorable factors such as family history, lipids, EKG, recent testing and smoking status

NOTE: This Field Underwriting Guide is usually printed only once annually. The information contained within may be updated at any time throughout the year. ## Lab Scoring

AGL and US Life uses a lab scoring methodology to determine preferred rate classes for Term applications, and overall acceptability. Applicants with favorable lab scoring results, in addition to our established preferred criteria, are eligible to receive our best offers. The vast majority of applicants who previously met Preferred Plus, Preferred Non Tobacco, Standard Plus, or Preferred Tobacco rate class criteria continue to do so.

## Attending Physician Statement (APS) ordering guidelines

A routine physical exam (PE) APS should be ordered in these circumstances:

AGE AND AMOUNT APS ORDERING GUIDELINES	
AGE	Face Amount
0-5	Exceeds \$100,000, obtain pediatrician records
6-17	Exceeds \$500,000 and PE within 2 years
6-17	Exceeds \$3,500,000 and PE within 5 years
18-39	Exceeds \$2 million and PE within 2 years
18-39	Exceeds \$3,500,000 and PE within 5 years
40-59	Exceeds \$1 million and PE within 3 years
40-59	Exceeds \$3,500,000 and PE within 5 years
60-70	All amounts and PE within 5 years <sup>+</sup>

AGE	+ Older Age Guidelines
60-70	Standard if no complete PE within 2 years
71-80	Decline if no complete PE within 2 years

RANK	American General Life Coverage Limit (Not Total Line)
New enlistee	None
Academy or ROTC Cadet	\$250,000

E1–E2	\$100,000
E3–E5	\$250,000
E6–E7	\$500,000
E8–E9	\$750,000
WO1–WO2	\$1,000,000
WO3–WO4	\$1,500,000

Selected Nonmedical Risks continued on next page

Additional military guidelines

- Reservists and National Guardsmen: If they are employed in a civilian capacity (e.g. work at AIG) and are neither alerted for mobilization nor already mobilized, they are underwritten based on their income and occupation and are not subject to the rank restrictions above
- Reservists and National Guardsmen (alerted or mobilized) are underwritten as active military personnel detailed above
- AGR soldiers/sailors/airmen ("active guard/reserve") are reservists whose occupation is performed in uniform at a military unit; they are subject to the same coverage limits as active military personnel above
- Military pilots may be rated and we will not consider for better with an AER
- Amounts of coverage over the above limits are rarely issued, and are only considered for very exceptional circumstances (e.g., a military surgeon or dentist).  
Note: Plans for retirement are not considered exceptional circumstances. To determine if you have an exceptional circumstance, please send a quote request to our QuickQuote desk.

We limit coverage for military applicants to reduce exposure during time of war/conflict, also taking into consideration that military training can be dangerous and accidents happen from time to time. The higher the rank, the less likely the applicant would be subject to the same risk as a lower enlisted serviceman. Therefore, we can consider higher amounts for military personnel of higher rank.

General Financial Underwriting Guidelines  
Personal Insurance

The Financial Underwriting section of this guide is intended to provide you with a basic overview of the most common financial situations and the methods used for calculating a justified amount of coverage.

INCOME REPLACEMENT*	
AGE	Multiply Earned Income by
≤40	25
41-50	20
51-55	15
56-65	10
66-70	5
71+	Individual Consideration

\* Income multiples for personal insurance are guidelines only. Consider the income multiple for each age range as the maximum amount for which an individual might qualify. The maximum income factor may not be appropriate for all applicants in a particular age range.

Non-Working Spouse, age 65 or less:

- If household income is less than \$25,000, we will allow up to 10 times the income of the working spouse.

Working spouse coverage unknown:

- If household income is \$25,000-\$99,999, we will allow up to \$250,000 on the nonworking spouse with no additional financial clarification.
- If household income is \$100,000 or more, we will allow up to \$500,000 on the nonworking spouse with no additional financial clarification.

Working spouse coverage is known:

- We will match the working spouse's coverage up to \$1,000,000
- Amounts over \$1,000,000 will be individually considered, based on estate planning needs.

Non-Working Spouse, over age 65:

The amount of coverage must be justified using estate planning needs.

## Additional Personal Insurance Notes

Note – all amounts referenced are total line (in force and applied).

Additional amounts may be considered if justified.

- Estate Conservation need is based on the taxable value of the estate. Provide estate conservation analysis with the application. Maximum allowable growth rate is 6 percent up to a maximum limit of double the current gross estate.
- Final Expense coverage will be considered for a maximum of \$50,000 when limited financial justification is demonstrated. This amount includes total line with all carriers. If no financial justification is demonstrated, no coverage will be issued.

### Juveniles:

Juveniles are defined as clients age 0 to 17.

#### Financial Requirements:

Face amounts \$0-\$500,000

(amounts requiring only a Non-Med Part B\*)

- At least one parent(s)/guardian will need to have the same amount being requested (unless state specific statutes apply).
- If the other parent does not have any coverage inforce, or has coverage inforce at a lesser amount than the coverage being requested for the juvenile, the agent will need to provide a cover letter detailing the circumstances surrounding the reason for 1) either the lack of any coverage inforce, or 2) coverage inforce at an amount less than the amount being requested for the juvenile (unless one is uncovered due to un-insurability - contact your home office underwriter to discuss first)
- All siblings require equal amounts of coverage

Face amounts over \$500,000

- Individual consideration (contact your home office underwriter to discuss first)

\* An APS and/or inspection may be ordered for cause. Other requirements may be necessary based upon the underwriter's judgment.

## Business Insurance

### Key Person

Coverage financially protects the company from adverse financial impact if a key employee suddenly dies. The policy would provide funds to find, recruit and train a replacement, help replace any lost profits, and strengthen the balance sheet to assure creditors the business will continue.

Maximum of 10 times total compensation. In some circumstances (e.g., age, time to retirement, industry and location, etc.), 3 to 5 times compensation will be considered as an appropriate maximum.

### Buy-Sell/Business Succession/Business Continuation

Coverage is limited to the market value of the proposed insured's portion of the business as detailed in the Buy-Out or Buy-Sell agreement, or third party financials.

### Business Loan Coverage

Minimum 5 years remaining on the loan, coverage limited to 75 percent of loan, prorated per each owner's percent share of the business. Business will be the owner and beneficiary with collateral assignment to the debtor. Venture capital is limited to 50 percent coverage, prorated as above.

### Accidental Death Benefit

A maximum of \$250,000 per life subject to filed plan limitations. See each plan for details.

### Waiver Of Premium

A maximum of \$5,000,000 per life subject to filed plan limitations. See each plan for details.

# Bankruptcy

Credit report required on all cases ; Tax Return Transcript may be required as well at the discretion of the underwriter

## Term Insurance - Chapters 7, 11, 12, 13

### Single Bankruptcy:

- We will not consider coverage until the bankruptcy has been discharged for at least 24 months (2 years), and financial data supports the total line of coverage to be in force.

### Multiple Bankruptcies:

- We will not consider coverage until the most recent bankruptcy has been discharged for at least 60 months (5 years), and financial data supports the total line of coverage to be in force.

\* Credit report required on all cases; Tax Return Transcript may be required as well at the discretion of the underwriter

## Permanent Insurance - Chapter 7

We can consider coverage immediately upon discharge of the bankruptcy:

- If the discharge was less than 12 months ago, the proposed insured must be employed full time and provide us with a current pay stub (or tax return) that documents an income appropriate for the amount of coverage in force and applied.
- For applicants that have had a Chapter 7 bankruptcy discharged more than 12 months ago, no current pay stub or tax return is required in most cases, however, financial justification for the amounts in force and applied will be required.

## Permanent Insurance - Chapters 11, 12, 13

We will consider permanent insurance coverage for applicants currently in Chapter 11, 12, or 13 bankruptcy once the applicant is making regular debt payments and financial data supports the total line of coverage to be in-force.

- Note that we will reduce the amount of income we consider the applicant to make by the amount of the debt payment made, as per court direction.
- Copies of court papers directing repayment will be required for amounts of \$5 million and up.

## Permanent Insurance

### Multiple Bankruptcies

- No offer until discharged from last bankruptcy for at least 24 months and financial data supports the total line of coverage to be in-force.

## Cigar Smokers\*\*

This policy will apply only to occasional cigar users and not other forms of tobacco.

- 1) The use is admitted at the time of application/inquiry and all case data coincides with the admitted degree of usage; and
- 2) No more than one cigar per week; and
- 3) No nicotine metabolites (cotinine) are present in the urinalysis done for AGL/US Life or any other company within the past 12 months; and
- 4) There is no use of tobacco products other than occasional cigars for at least 5 years prior to the time of application or inquiry.

## Tobacco Use

A Tobacco user is considered to be anyone who has used tobacco in any form in the last 12 months. This includes:

- Cigarettes
- Cigars - Only limited cigar usage may be considered for non-tobacco rates. (See "Cigar Smokers")
- Pipes
